

# Eyegard™ Patient Eye Protection

***National Surgical Corporation/ Sharn Anaesthesia Eyegard™:  
gentle, versatile patient eye protection during surgery***

## **REDUCE RISK OF CORNEAL ABRASION**

Ensures patient's eye is closed to reduce risk of drying out and potentially leading to corneal abrasion

## **MORE GENTLE THAN TAPE**

Protect thin, fragile skin around eyes. Made using specially formulated medical grade adhesive that is more gentle than tape

## **EASY TO APPLY AND REMOVE**

Non-adhesive tab makes it easy to apply, reapply, and then easily remove with gloved hands. Clipped-edge design helps the patch conform to a variety of eye sizes and shapes

## **OFFERS MAXIMUM PROTECTION**

The oval shape fits and covers the eye perfectly with no gaps or cross taping

## **TRANSPARENT TO ENSURE EYE CLOSED**

Made with clear material so that you can see that the eye is properly closed during surgery

## **HYPOALLERGIC & LATEX FREE**

Made of a Latex free, breathable, waterproof and hypoallergenic material which can be used on all patients

## **LASER EYEGARD AVAILABLE**

Protect eyes during laser surgery - wavelengths of 190nm to 11,000nm with Optical Density 7+

## **ADULT & PAEDIATRIC SIZES AVAILABLE**

Available in adult standard and sensitive for delicate skin. Paediatric sensitive available for children up to 8 years old
