

Medichill Facial & Dental Ice Pack

The Dental Ice Pack combines the unique Australian Made Medichill Cool Cubes with a latex-free, adjustable non-slip compression cover. Providing soothing comfort and natural pain relief following dental, maxillofacial and oral cosmetic surgery.

A comfortable, low profile, lightweight and natural solution to the problem of applying cold therapy after extractions and surgery. Soft-stretch polyester cover holds the ice pads in place and minimises head slip. Each pack comprises a cover and 2 DIP4 Cool Cube sheets. Covers and DIP4s can be purchased as separate items. Cool Cubes are TGA registered 120115.
