

# Purekeys medical keyboards

*Completely flat keyboard: easy to clean and disinfect, types like a normal keyboard*

## EASY TO CLEAN

The completely flat surface enables easy cleaning and disinfecting with all hospital grade disinfectants

## FLAT SILICONE TOP

Purekeys keyboards have a completely flat top while offering excellent tactile feedback when typing

## WATER- AND SPILLPROOF (IP66 RATED)

IP66 refers to “dust tight” and protected by powerful jets of water, lack of edges and seams ensures no liquids can penetrate the board or keys, unlike traditional keyboards

## CONNECTION

Connects easily with USB wired cable to any Microsoft Windows-based PC - plug and play

## IMPROVE HOSPITAL INFECTION CONTROL

Reduce contamination in the hospital, dust and debris will not get trapped, like in raised keyboard keys

## ANGLED OPTIONS

Fixed angle option available to allow keyboard to be permanently viewed and used on an angle

## REAL KEYS FOR COMFORTABLE TYPING

Top layer of a Purekeys keyboard is made of high quality silicone. Underneath this flexible layer are the keys that give a tactile feel of a normal keyboard and a comfortable typing experience

## DIFFERENT OPTIONS AVAILABLE

Available as a compact or standard size, with touch pad or optional mouse

National Surgical Corporation  
is certified to  
AS/NZS ISO 9001:2015
